

ALPER ALIMOĞLU, PH.D.

Blockchain & Distributed Systems Researcher | Software Engineer

✉ <mailto:alper.alimoglu@gmail.com> <https://github.com/avatar-lavventura> 📍 Istanbul, Turkey

SUMMARY

Researcher and software engineer with 12+ years of experience in software development, blockchain systems, and distributed computing. Ph.D. in Computer Engineering (Boğaziçi University). Strong publication record (SCI Q1/Q2). Experienced in both academia (lecturer) and industry. Skilled in Python, Solidity, cloud engineering, and smart contracts.

SKILLS

- Python
- Solidity
- C
- Bash
- Ethereum
- Smart Contracts
- GNU/Linux
- Cloud Systems
- Distributed Computing
- Blockchain
- Docker

EXPERIENCE

Senior Python Developer

Huawei

- 📅 Mar 2025 – Aug 2025 📍 Istanbul, Turkey
- Developed blockchain-integrated software tools for telecom infrastructure.
 - Optimized distributed systems for performance and scalability.

Part-time Lecturer

Boğaziçi University

- 📅 Feb 2025 – Jun 2025 📍 Istanbul, Turkey
- Taught *Functional Programming and Verification*.

Middleware Administrator

Anadolu Hayat Emeklilik

- 📅 Aug 2024 – Nov 2024 📍 Istanbul, Turkey

Cloud Engineer

ICRON A.Ş.

- 📅 Mar 2024 – Apr 2024 📍 Istanbul, Turkey

Research Project Assistant

Binghamton University (SUNY)

- 📅 Aug 2012 – Jul 2015 📍 NY, USA
- Smart Load Balancer:** Applied Echo State Network ML models for workload prediction in data centers.
 - b-ext4 File System:** Hybrid SSD/HDD design to optimize performance and reduce energy consumption.

Internships

Cisco, Ericsson, ITU Robotics Lab

- 📅 2009 – 2010 📍 Istanbul, Turkey
- Cisco University Prize-winning research intern.
 - RoboCup 3D Simulation Team (ITU AI & Robotics Lab).

EDUCATION

Ph.D. in Computer Engineering

Boğaziçi University

📅 2016 – 2024

📍 GPA 3.64/4.0

Thesis: EBlocBroker: Blockchain-based Computational Broker for e-Science Advisor: Prof. Can Ozturan

M.Sc. in Computer Science

Binghamton University (SUNY)

📅 2012 – 2014

📍 Valedictorian, GPA 3.77

Thesis: Short-Term Workload Prediction with Reservoir Computing Advisor: Prof. Kanad Ghose

B.Sc. in Information Systems

SUNY Binghamton & Istanbul Technical University

📅 2008 – 2012

📍 Summa Cum Laude, GPA 3.89

PUBLICATIONS

Journal Articles

- Alimoglu, A., Özturan, C. “An Autonomous Blockchain-Based Workflow Execution Broker for e-Science”, *Cluster Computing*, Springer (SCI-E Q1), May 2024. DOI:10.1007/s10586-024-04534-z
- Alimoglu, A., Özturan, C. “An Autonomous Blockchain-Based Computational Broker for e-Science”, *Concurrency and Computation: Practice and Experience*, Wiley (SCI-E Q2), Mar 2024. DOI:10.1002/cpe.8087

Conference Papers

- Alimoglu, A., Özturan, C. “Design of a Smart Contract Based Autonomous Organization for Sustainable Software”, *IEEE 13th International Conference on e-Science*, Oct 2017. IEEE Xplore Link
- Shahriar Asta, Tuna Sonmez, Onuralp Ulusoy, Alper Alimoglu, Mustafa Ersen, Ozdemir Sozmen, Sanem Sariel-Talay. “BeeStanbul Team Description Paper”, *RoboCup Symposium Workshop*, Istanbul, Jul 2011. PDF Link

Preprints & Under Review

- Alimoglu, A., Erdayandi, K., Mustafa, M. A., Cali, Ü. “EDGChain-E: A Decentralized Git-Based Framework for Versioning Encrypted Energy Data”, arXiv preprint, Jun 2025. arXiv:2507.01615
- Alimoglu, A., Özturan, C. “Blockchain Based Autonomous Organization for Sustainable Software and Execution History”, Submitted to **Blockchain: Research and Applications**, Dec 2024.

HONORS & AWARDS

- 🏆 **Valedictorian**
Graduate commencement speaker, Binghamton University, 2014 , Speech: “Protect Our Dreams”
- ★ **Summa Cum Laude**
Top of Class, B.Sc. in Information Systems, 2012
- 🏆 **Cisco University Prize**
Winner, 2010
- ★ **Dean’s List**
Multiple honors at ITU & SUNY
- ★ **Academic Achievement Award**
SUNY Binghamton, GPA 3.98, 2012
