

ALPER ALIMOĞLU, Ph.D.

Distributed Systems & Blockchain Researcher | Python Software Engineer

✉ alper.alimoglu@gmail.com 🌐 GitHub 🔗 LinkedIn 🌐 alperalimoglu.github.io

PROFESSIONAL SUMMARY

Ph.D. in Computer Engineering with 12+ years across software development, blockchain systems, and distributed computing. Most of that in research; the recent roles are industry.

SKILLS

Languages: Python, Bash, Solidity **Frameworks & tools:** Flask, REST APIs, Docker
Platforms: Ethereum, GNU/Linux **Domains:** Blockchain, Distributed Computing, Smart Contracts

EXPERIENCE

Data Scientist @Odeabank Nov 2025–Present Istanbul, Turkey
Refactoring a Python backend project (~20k lines) that recommends optimal fund offers to customers; improved runtime performance.

Python Developer @Huawei Mar 2025–Aug 2025 Istanbul, Turkey
Fixed bugs in database Python projects. First-authored an academic paper.

Part-time Lecturer @Boğaziçi University Feb 2025–Jun 2025 Istanbul, Turkey
Taught *Functional Programming and Verification* to senior undergraduate students.

Middleware Administrator @Anadolu Hayat Emeklilik Aug 2024–Nov 2024 Istanbul, Turkey
Built a Microsoft Teams chatbot with a Python/Flask backend powered by Microsoft's LLM; deployed company-wide.

Cloud Engineer @ICRON A.Ş. Mar 2024–Apr 2024 Istanbul, Turkey
Managed the company's Azure cloud infrastructure; migrated databases across regions.

R&D Engineer @Boğaziçi University Feb 2017–Jul 2024 Istanbul, Turkey
Python backend development for own Ph.D. research; core contributor to eBlocBroker (github.com/ebloc/ebloc-broker).

Research Project Assistant @Research Foundation for SUNY Aug 2012–Jul 2015 NY, USA
Smart Load Balancer: Applied Echo State Network ML models for workload prediction in data centers.
b-ext4 File System: Hybrid SSD/HDD design to optimize performance and reduce energy consumption.

Internships @Cisco, Ericsson, ITU Robotics Lab 2009–2010 Istanbul, Turkey
Research intern. RoboCup 3D Simulation Team (ITU AI & Robotics Lab).

EDUCATION

Ph.D. Computer Engineering Boğaziçi University 2016–2024 GPA 3.64/4.0
Thesis: **EBlocBroker: Blockchain-based Computational Broker for e-Science.** Advisor: Prof. Can Özturan

M.Sc. Computer Science Binghamton University (SUNY) 2012–2015 GPA 3.77/4.0
Thesis: **Short-Term Workload Prediction with Reservoir Computing.** Advisor: Prof. Kanad Ghose

B.Sc. Information Systems Engineering Binghamton University (SUNY) & ITU 2008–2012 GPA 3.62/4.0
Joint Dual Diploma program of Binghamton University and ITU; Binghamton University GPA 3.89/4.0

AWARDS & HONORS

- 🏆 **Valedictorian:** Graduate commencement speaker, Binghamton University, 2014, Speech: "Protect Our Dreams"
- ★ **Summa Cum Laude:** Top of Class, B.Sc. in Information Systems Engineering, 2012
- ★ **Dean's List:** Multiple honors at Binghamton University (SUNY) & ITU
- ★ **Academic Achievement Award:** Binghamton University (SUNY), GPA 3.98/4.0, 2012
- 🏆 **Cisco University Prize:** Winner, 2010
